High School will graduate 44 seniors at winter commencement exercises to be held at 8 p.m. Wednesday in the auditorium.

Speakers and their topics include Goeffery Keppel, "A World Won"; June Smith, "Evaluating Our Performance," and Eugene Honnert, "Our Class History."

The program will open with the "Pomp and Circumstance" by the high school band, followed by the "Star Spangled Banner" and the invocation by Douglas H. Henderson, Community Church. The school choir will sing "The Lord Bless You and the Lord Bless You" by Lutkin and "Prayer" by Malotte.

With Albany Schools now operating on an annual promotional plan, the Board of Education today has authorized a study of student report card methods for the purpose of improving procedures in local schools.

A committee composed of interested parents and teachers will be formed next month to make a study of reporting methods and to make recommendations to the Board.

Dr. Philip Meads, president explained at the Tuesday night Board meeting that such a study must go deeper than a survey of present practices or the opinions of parents and teachers.

"It should involve a consideration of the many aspects of child growth and understanding of the purpose of education," he said.

The committee will hold regular meetings during the spring, study literature in this field, listen to experts and finally recommend improvements.

In other business, the Board made a study of tentative plans for the renovation of the Marin School cafeteria. Plans were submitted by Architects Young & Lloyd and call for complete modernization similar to the new Cornell School cafeteria.

Work is expected to start at the close of the spring term so that the job may be completed by the opening of school in September.

Dr. Paul C. Bryan, superintendent of schools reported that the Albany school district will receive approximately \$52,000 in Federal Aid during this fiscal year. The sum is based on last year's student attendance.

The Board accepted the resignation of Mrs. Edith Ball of MacGregor School and named Mrs. Anne J. Mayer, student teacher, for the vacancy. Lloyd C. Gordon was employed as assistant custodian at Cornell School to replace T. E. Johnson, who died December 12.

Plans for eight additional classrooms at Codornices School have been approved by the State and bids will be called for in the near future. Construction will be financed by the Federal Government.

Lions Attending Convention in SF

Members and delegates of Albany Lions Club today are in San Francisco attending the Lions International Convention.

The Alameda-Contra Costa County Medical Association bloodmobile unit will be stationed at Cornell School Thursday, January 22, between the hours of 1 and 6 p.m.

Mrs. John D. Hicks, chairman of the Blood Donor Recruitment Committee for Berkeley Red Cross explained the necessity for a continued and expanded blood program. A new need for blood has been added to the already vital Red Cross blood program, she said.

According to Mrs. Hicks the Red Cross has been collecting blood for the Armed Forces and for Civil Defense. It has now been asked by the Office of Defense Mobilization to supply blood for processing into gamma globulin, a new weapon which has proved its effectiveness in the prevention of paralysis from polio.

Mrs. Hicks added that the Red Cross has distributed gamma globulin made from war surplus plasma to physicians for treatment of measles and infectious hepatitis for the past several years.

Individuals, service clubs and other organizations in Albany have united to make this the best blood year.

The Albany YMCA today is enrolling students for the winter swimming program beginning Saturday, January 17. All classes are held at the Albany Pool under professional instruction and qualified instructors assisted by a group of trained volunteers.

The National YMCA 21 beginners tests and 30 intermediate tests are used in developing youngsters to become top grade swimmers, according to Elmer Coble, executive secretary. Safety factors emphasized include "know how to swim," "have a concern as to where to swim," and "when to swim."

Swan to Head Red Cross Residential Fund Drive

Appointment of Fred Swan as general chairman of the 1953 residential fund campaign of Berkeley Red Cross was announced this week by Dr. Paul C. Bryan, chapter chairman. Under the 1952 agreement with the United Crusade the Red Cross reserved the right to conduct a separate residential solicitation in March of this year. No residential quota was included in the budget submitted by Berkeley Red Cross to the United Crusade.

According to Chairman Swan, three groups will be included in the drive: those not displaying a window sticker showing a donation to the United Crusade, those with a sticker who wish to give more to the Red Cross, and those wanting to contribute separately to individual agencies.

"Although United Crusade in 1952 raised more money than the combined group of agencies in previous years, the total goal still was not reached," said Swan. "We must therefore seek more in contributions from the residents of Berkeley, Albany, and Kensington than was originally planned."

An added expense in the coming months will be the collection of blood by the American National Red Cross for processing by commercial laboratories into gamma globulin. Injections of globulin are used for the prevention of paralysis in polio and in the treatment of measles and infectious hepatitis.

Swan pointed out that this important task added to the present blood collection activities may mean that the Red Cross Blood Program eventually will reach into most of the homes in this community.

Swan served as corporation division head for the Berkeley Red Cross fund drive in 1951 and as vice-chairman under E. Ronald Long in the 1952 campaign. He was also vice-chairman of the Northern Area for the United Crusade in 1952.

Rosemary Sue was the name given a girl born January 12 at Herick Hospital to Mr. and Mrs. Frank E. McLean, 1007 Clay St. She weighed 5 pounds 7 ounces. The father is in the US Coast Guard.

Calories Make the Difference

KEEP IT BALANCED

Peck's bad boy couldn't have taken more punishment than has the abused calorie, yet no one could live without it. Whether you are big or little, you need energy to work and enjoy life. That energy can come only from calories furnished by food.

Today, good diet has an indirect enemy—the calorie—because some folks forget that a key to healthful living is balanced eating. So much is said about hazards of overweight that the food needs of the underweight person or the energetic youngster are overlooked. Extreme thinness, though fashionable, is a real hazard.

It is easy enough to see the results of too many calories. Likewise a lack of calories is evident before the lack of proteins or any one of the vitamins or minerals sounds a warning. Undereating leads to nervousness, irritability, loss of appetite, indigestion, listlessness, lack of vitality and lowered resistance.

The energy to live comes from food and the amount of energy supplied by that food is measured in terms of calories. Actually, food is fuel. Fuels be they gasoline or apple pie, put the "go" in your car or your body. Your age, how hard you work physically, and your size decide how many calories you need. Too many calories go to waste, on your waist.

Fats give about twice as many calories as do sugars, starches or proteins. Foods high in fat have a high calorie count. Some foods, such as a few fruits and vegetables, due to their large amounts of cellulose and water are very low in calories. Nutritionists consider bread and lean meat as having in-between calorie values.

Calories from enriched bread and cereals are economical sources of energy. In some cases, these foods furnish good protein for as much as one-half the cost of high-protein foods.

Albany SOROPTIMIST News

The experiences of a young Polish war bride who today enjoys freedom again after escaping from behind the Iron Curtain were passed along to Albany Soroptimists and guests at the Wednesday luncheon.

Speaking before the club was Mrs. Max Kelley, 628 Stannage Ave., who with her mother and sister spent 2½ years in a Russian slave camp after the Communists invaded her native land in September, 1939. Her father died shortly after the Russians took over, and her brother "just disappeared."

Mrs. Kelley with her mother and sister escaped to Iran in 1942, remaining there some time in a Polish camp under British rule. They were later sent to Africa, where she met her husband. She came to America in 1946 as a war bride.

The speaker was introduced by Kay Hill, with President Ruby Kampe presiding.

Dr. Winfield Wickham, clinical psychologist of Alameda County will speak next Wednesday on the topic, "Responsibility of Parents for Prevention of Juvenile Delinquency."

Requiem Mass Said For Thomas Curran

A requiem high mass was offered Thursday morning at St. Jerome's Catholic Church in El Cerrito for Thomas P. Curran, of 504 Carmel Ave., who died in a local hospital Sunday. He was 73.

A native of Los Angeles, Mr. Curran had resided in Albany for the last two years. He was a blacksmith by trade and had worked for Pacific Gas & Electric Co. 15 years. He retired 18 years ago.

Surviving are his widow, Elsa; a son Philip of Albany; a sister, Mrs. A. M. Seeley of Burlingame, and two brothers, Philip of San Francisco and James of San Luis Obispo.

Mr. and Mrs. Louis J. Macari, 961 Masonic Ave. are announcing the arrival of Janice Lynn, who arrived January 9 at Herrick Hospital weighing 7 pounds 14 ounces. The father is a driver-salesman for a baking company.

How to Dramatize Your Towels

IT'S ALWAYS SMART to personalize household linens with smart monograms, but here's an even newer slant! Clever makers today dramatize the monogram itself! To add an individual touch to sheets and towels, here's a new idea with less possibilities.

To individualize a monogram add a "character" to the design, suggests The Cannon Homemaking Institute. This symbolize a favorite hobby, sport or pastime. The crossed swords design shown above is the "charactergram" of a young woman interested in fencing.

Give a little thought to your own activities and add an equally attractive symbol of your monogram!

Does your family like tennis? Combine a tennis racket design with your letters. Is your husband a hunter? Deer antlers or a duck in flight will make a beautiful symbol for linens. Do you like to sing? Try musical notes intertwined with the letters of your monogram.

garden your favorite avocation? An amusing design of a trowel or rakes makes a real conversation piece!

When you come up with the right idea, draw the design. If this is beyond your artistic talents search through magazines until you find a suitable design to trace. Most sewing machines have special attachments to make the actual stitching easy.

Be sure to choose a monogram style that looks well with the design. For instance, ornate letters are ideal for this crossed pattern, but a modern symbol is best combined with simple letters. (ANS Features)

Pancake Ice in the silent Alaskan sea swell

WATER FREEZING INSTANTLY on the deck of a submarine and on the tank which holds the landing craft abaft the conning tower. The scene is one of cold and quiet as the crew of the USS Perch tests the possibilities of amphibious landings by submarine in Arctic waters.

The work these men are doing is testing and research for the future protection of us and our country. We can do something toward the protection of that future, too—investing in United States Defense Bonds. For by Bonds and other forms of saving, we're building up our personal prosperity and security. And when we're financially secure, we're building up America's economic strength just as the Navy men are supporting her armed strength. You know, *peace is only for the strong!*

The chances are you're one of the 43,000,000 Americans who own Series E Defense Bonds. Are you one of the 7½ million who invest in them regularly through the Payroll Savings Plan? If not, why not start now? Save your money safely and systematically through the Payroll Savings Plan where you work. You'll find it's one sure way to save. So join the Plan today—or invest through the Bond-A-Month Plan where you bank. Help make a better future for yourself and for your country by saving your money through Bonds.

Here's how E Bonds now earn more money for you!

Now safe, sure U. S. Series E Defense Bonds pay an even better return than ever before... thanks to 3 brand new money-earning features.

- 1 Now every Series E Bond you get earns 3%, compounded semi-annually, when held to maturity.
- 2 Every Series E Bond you own can now go on earning interest for 10 more years after it reaches the original maturity date.
- 3 During the 10 year extension period, every unmaturing Bond earns at the new, higher interest (average 3%, compounded semi-annually).

Start now! Invest more savings in better-paying Series E Bonds—through the Payroll Savings Plan.

Peace is for the strong...for peace and prosperity, save with U.S. Defense Bonds!

Shipmates Aboard The "Desi-Lu"

Here, minus makeup and the hectic atmosphere of their enormously successful TV show, are Lucy and Desi Arnaz, relaxing aboard their boat, the *Desi-Lu*. One of video's handsomest and funniest couples, they panic 20,000,000 fans each week with their "I Love Lucy" shenanigans. Their personal life, which closely parallels the moods of the Ricardo family they portray on TV, includes a ranch home near Los Angeles, their 1½ year old daughter, Lucie Désirée, and another date with the stork on January 19th. A six-page cover story in the January issue of *Cosmopolitan* magazine traces the Arnaz' sky-rocketing career since the former Cuban aristocrat-turned-band leader met the ex-theatrical girl, soda-jerk and dress model. Explaining the lovely Lucy's switch from movie siren roles to blackened teeth, baggy pants and screwball hairdos, the article quotes her as saying, "I don't know why, but I just love it when they laugh."

IT'S AN OLD-FASHIONED CUSTOM to eat pancakes on Shrove Tuesday. Since no meat was to be consumed for the following forty days of Lent, all the fat and drippings were used up in a great batch of mouth-watering griddle cakes, browned to a turn and swimming in syrup. And when the feast was ready all the household was summoned to the table by the ringing of the Pancake Bell. You can capture something of this lovely tradition and introduce a novel note this year by serving Danish-style pancakes folded bell-shaped! And put zing in the tradition with an easy-to-make topping of cranberries and maple-blended syrup.

MAPLE-TANG SAUCE
¾ lemon 1 apple
¾ orange 2 cups raw cranberries
1½ cups maple-blended syrup

Remove seeds from lemon and orange. Core, peel, and quarter apple. Put lemon, orange, apple, and cranberries through medium grinder. Add maple-blended syrup and mix well. Chill in refrigerator several hours or longer, to blend flavors. Serve over Danish Pancakes. Makes 3½ cups.

Note: This sauce will keep for several days in the refrigerator.

This is a True Case History
I SAVED \$116.86 ON THE CAR I BOUGHT

"I made over a 50% down payment on a late-model car. I was told it would cost me \$257.60 to insure the car and finance the balance of \$700.00. Lucky for me I'd talked to a State Farm agent first, because I used the Bank Plan instead and paid an insurance and financing charge of only \$140.74. I saved \$116.86." (One of many actual cases.)

Many People Assume Finance Rates Are Standard THEY ARE NOT!

The Bank Plan offers you two proven money-saving methods. Low-cost financing through a nearby bank and low-cost preferred-risk insurance rates. Get your own figures on the cost of the car you want and COMPARE them with Bank Plan costs FIRST! Call or see your State Farm agent BEFORE you buy.

Tips on Touring

Many a perfectly good pair of headlights are much like the cock-eyed ood in the English ditty who had one eye on the pot and 't'other up he chimney.

If the roads have seemed unusually dark to you during nighttime driving, the chances are your headlights need adjusting. They might be focused at a point too close to the car, thus depriving you of full-distance vision. Or the beams might not have proper height or width. Even slight aberrations by one headlight can deprive you of as much as one-third the illumination you should be getting.

The sealed-beam light now in common use gives many a driver a false sense of security since its efficiency is perfect until it goes totally blind. However, its ability to light up the road depends upon its alignment too.

Although headlight adjustment is simple to make, precision instruments are required to do the job properly. For about one dollar, any headlight inspection station—or your car dealer—will give you this most important safety precaution.

In some states, headlight inspection is compulsory twice a year. If this is not your state's law, then make it your law. It's one of the cheapest forms of life insurance you can buy.

teen-ager can tell you that a good breakfast and a good morning are in hand. Blessed with a hearty appetite he would tell you that a good breakfast starts off with cereal—either the ready-to-eat kind like bran flakes which may be combined with fruit as shown here, or an old-fashioned piping hot cereal such as wheat meal. In addition, milk and a good toast belong in the breakfast picture; and you'll find that the teen-ager will be happy to take on waffles or pancakes, or bacon and eggs while they're at it! This is the sort of spread that's sure to see a youngster through a rugged morning and prevent that hollow-in-the-stomach feeling toward lunch time.

Tips on Touring

By Carol Lane

Women's Travel Authority

The minute gentlemen started chattering their dates on busy highways, chivalry became a two-way street.

Right through the horse-and-buggy era, chivalry was a one-way proposition. Knights considered it a privilege to gouge each other in tournament for the lady fair.

Walter Raleigh was applauded for muddying his best cloak for his Queen. And a swain in the handle-bar moustache era had to think twice about dating a lady he couldn't lift bodily into his buggy.

Today, a lady's date won't even light her cigarette while he's driving—and he's absolutely right! Because safety is the first rule of etiquette for the driver. Attention to the comfort of his feminine passenger comes next.

A lady, however, has a right to expect her driver-escort to walk clear around the car in order to open the door for her. And she should take it for granted that the heater and windows will be adjusted for her comfort. That the car will be clean, and that the windshield wiper on her side will work so that she too can enjoy the view—even if it rains. And that the speed at which they travel should be geared to her peace of mind.

On the other hand, conversation during the drive becomes primarily the lady's social obligation. Upon her rests the burden of entertaining without distracting him. And keeping quiet when he's obviously wrestling with some immediate traffic problem.

The polite driver is considerate of the needs and feelings of his passenger. But the polite passenger realizes that the driver can't concentrate on her and on the road at the same time!
